

TIPS FOR SUCCESS

- 1 Find a dedicated space to do your school work.
- 2 Decide when you are going to study each week, and start blocking out the time for class and homework in your calendar now.
- 3 Explore the class ONLINE before it begins so you can locate the readings, course resources, content, and assignments.
- 4 Review your syllabus and the course outcomes so that you know what topics and concepts will be covered.
- 5 Plan your reading and assignments early in the week so you don't fall behind.
- 6 Open a line of communication with your faculty member early, before the first session.
- 7 Reach out to your fellow students. Form study groups and help and support each other.
- 8 Believe in yourself. Set goals, stay on track, and you will succeed.
